**Microsoft 365 Certified: Fundamentals - MS 900**

[Link to Certificate](#)

As a tech enthusiast armed with a Bachelor's in Computer Science, I bring a blend of UX design and software development skills to the table. I excel in crafting not just functional, but visually captivating and user-friendly products. Beyond the code, I've a love of network infrastructure and cloud computing. My element? Thriving in dynamic settings that demand adaptability, flexibility, and seamless collaboration within teams by adding my unmatched enthusiasm, drive and love. My mission? Harnessing technology to tackle challenges and elevate lives

## EXPERIENCE

**Consultancy (Volunteered/Freelance), SELF-EMPLOYED** Jun 2013 — Present

- Delivered exceptional design solutions and training services to a diverse portfolio of 20+ clients across the tech, education, and accounting sectors, spanning both digital and print mediums. Collaborated closely with clients to understand their unique needs, providing tailored recommendations and driving successful project outcomes.

**Social Media Management Intern, PENIEL INSTITUTE** 2021

- Developed and implemented a comprehensive social media strategy, successfully establishing the company's online presence across multiple platforms including Facebook, Instagram, LinkedIn, and Twitter. Additionally, created the company website at [penielinstituteja.com](http://penielinstituteja.com).

**Freelance IT Support, BEEKEEPER’S WORLD** 2021 — March 2024

- Developed and implemented custom bookkeeping software system, resulting in a 50% increase in overall business efficiency
- Led employee technical training to optimize software usage and drive business performance
- Spearheaded seamless transition from manual to digital bookkeeping, streamlining operations and improving productivity

**Technical Presales Consultant Intern, Digicel** July - October 2023

- Implemented strategic modifications, resulting in notable time and resource savings, and received positive feedback for improving overall team productivity.
- Developed and proposed ICT solutions tailored to address specific business challenges, considering factors such as quality, cost, and time constraints

**Technical Presales Consultant, Digicel** Present

- Proactively apply experience to actively craft effective ICT solutions, considering factors such as quality, cost, and time limitations.
- Leveraged my coding background proactively to significantly enhance the efficiency of the team's workflow by a remarkable 50%
- Pioneered the development of impactful ICT solutions, actively contributing to the company's revenue stream with a consistent monthly influx of over \$4.7k USD

## PROJECTS

**SolidMeal A Recipe Recommendation App** Jan 2023 — Present  
[Link to Project](#)

**Skill Stack**  
Flutter, Dart, FlutterFlow, Firebase

### Key Contributions and Achievements

- Developed the SolidMeal app using Flutter and Dart, ensuring a seamless user experience across iOS and Android platforms.
- Leveraged FlutterFlow to design and implement the app's UI, saving development time and allowing for rapid iteration and prototyping.
- Implemented advanced algorithms, including the K-Nearest Neighbors (KNN) algorithm, to generate personalized recipe recommendations based on the user's nutritional profile.
